

News from Over the State

Froze to Death in Woods.

Mr. Robert Bailey of Jackson, was found dead in the woods near Benton on Sunday morning, evidently frozen to death during Saturday night, when the weather was so cold.

Mr. Bailey, with several friends, had gone hunting Saturday. He was subject to serious attacks, and it is presumed he had one of these attacks and lost his party. He was missed and search was made for him, but he could not be found till Sunday morning.

No one thought anything serious had happened to the young man, who was about 30 years old, and that he would return Sunday morning well and hungry. When he failed to return after daylight another search was made for the young man, and his body was found in the swamp, near where he was last seen.

State Bonds.

Applications for small lots of the State bonds are coming in occasionally, and a good part of the issue could be disposed of to residents of the State, if the Governor was in position to carry on negotiations with these bidders, which he is not.

A bond house has an option on the remainder of the issue of \$600,000 of bonds, which does not expire till Dec. 1, and if the option is not exercised, then the Governor will again dispose of bonds in small lots. While nothing has been heard from the house holding the option, it is believed the remainder of the issue, a little less than \$500,000, will be disposed of to this firm.

Will Visit Northern Schools.

State Superintendent of Education J. N. Powers will depart for Indianapolis tonight to attend a meeting of the Southern Superintendents of Education at that place. After a conference at Indianapolis the superintendents will make an automobile tour of the State, studying educational conditions.

The party will spend two or three days going over the rural districts inspecting the school and informing themselves on the question of rural school consideration, which has taken a strong hold upon the people of Mississippi and other Southern States, with a view to bettering conditions at home.

Farmer Kills Himself.

Because his grown children begged him to move to Natchez, where he saw no chance of success, A. B. Sims, a middle-aged farmer of Harrison, shot and killed himself.

"Arm," as he was generally called, took a short breech-loading shotgun and shells, went to an isolated part of the farm and placing the muzzle to the side of his head pulled the trigger with his hand, blowing off the whole side of his head. There is no coroner in this county, and Sheriff Gillis has gone out to hold an inquest.

Confesses He Assaulted White Girl.

Following his confession that he attempted to criminally assault a young white woman at Baldwin, Mississippi, recently, J. Howell, a negro, has been taken to the Aberdeen jail for safe keeping. Howell was arrested following the attack on the young woman and was taken to Tupelo to jail, but intense feeling against the accused manifested in that vicinity caused the officers to remove him.

Must Pay Street Tax.

The State Supreme Court handed down a decision affirming the decision of the lower court in the case of W. S. Rose, who fought the city of Biloxi, resisting the payment of street tax, after carrying his case through all the courts of the State, and he must pay the tax of \$3.00, with a police court fine of \$3.00 attached, to say nothing of the costs of the other courts.

State Sells More Cotton Seed.

The State has made another good sale of cotton seed. Four hundred tons

from Sunflower farm was sold at \$29.50 per ton, bringing the neat sum of \$11,800. The State always sells in big lots and by so doing is able to get the top market price and a little beyond. In this instance about \$3.00 per ton more than the market price was paid. On October 10th last the State sold from this same farm 400 tons of which it got \$31.00 per ton, but at that time the market was several dollars above what it is now.

Mysterious Death of Planter.

Mystery surrounds the death of Edward Dowsing, a well known planter residing near Caledonia, who was found lying beside the road near his home Wednesday night in an unconscious condition. Dowsing died Thursday. He left Caledonia late Wednesday evening in a buggy with a companion who has not since been seen. Although his injuries appeared to have been caused by being thrown from his buggy, the disappearance of his companion has aroused suspicion.

State Farm House Burned.

Secretary Yerger of the Board of Prison Trustees has been notified of the burning of the superintendent's house on the big Sunflower State farm. The fire occurred last Friday morning, and originated in the kitchen, probably from a defective flue. The building was an old one, and the loss will not amount to more than \$1,000. Most of the furniture and other contents were saved, possible not more than \$75.00 worth of household effects being destroyed.

Hon. G. A. Wilson of Lexington, a well-known capitalist, planter and banker, was in Jackson recently conferring with the business men relative to the plans of establishing a meat packing plant in that city, capitalized at from \$240,000 to \$250,000. While it is the purpose to interest Jackson capitalists in the new industry, the principal promoters are wealthy men in other States, who recently sent agents to look over the field, and who have made a favorable report on the project.

Mrs. Dunbar Rowland has forwarded to Mrs. Lucy Green Yerger at Greenville, a handsome Mississippi flag, which, according to custom, is to be presented to the chapter of the Daughters of the Confederacy that is the host of the annual re-union of all the States. The meeting will be held at Little Rock this year, and thus the chapter there gets a flag of all the States embraced in the National organization of the Daughters of the Confederacy.

In the case of the State versus Mrs. Upchurch of Indianola, wherein she was found guilty of killing her husband and received the award of a life sentence, the Supreme court reversed the finding of the Circuit court of that county on the ground that the testimony was not sufficient to justify the verdict. Mrs. Upchurch was represented by Mr. Elbert Johnson.

RIVER BUSINESS DELAYED.

Extreme Low Water Interferes With Steamboats on Mississippi.

The extremely low water in the Mississippi and tributaries has been very hard on steamboatmen the past week, and with a continuance of the falling river they are somewhat alarmed how the tributary landings will be reached. One of the Miller packets got out Monday and went hard aground in old river, and after getting off had been delayed up Yazoo. In the Mississippi the bends and very low places are causing equally as much hardship and delays, as all pilots are taking extreme care, and not many chances, for fear of grounding their boats.

The steamer S. B. Duncan, getting in sol ate, missed her Monday trip out of Vicksburg altogether, and will go

out this afternoon, taking up her regular Thursday afternoon run.

The Lee line is this trip sending out the steamer Ford Herold, a much larger boat than the Sadie Lee, Capt. Gus Nimitz in command, making his initial trip for the line. The Herold should be here tomorrow night to clear for Memphis Saturday morning at 8 o'clock.

The steamer Falls City may be docked the latter part of this or early part of next week. Replacing of hog chains is all that is necessary before she will be ready to go in commission.

Steamboat labor is coming rather high as the winter season advances, but steamboatmen do not anticipate any great trouble, as the cotton crop is short and labor should not expect so much as in a heavy, hard-working season.

The government steamers are moving constantly, hauling stone or making trips for other purposes to the various points where levee and revetment work is under way at Albemarle and other places along the Mississippi river. —Vicksburg Herald.

THE HUNTING SEASON OPEN.

The hunting season for quail has opened and the sport is reported to be excellent, there being an unusual number of these birds this year.

The season for ducks, geese and other water fowl opened September 1st, but of course these birds have not begun to arrive yet on their annual pilgrimage to the sunny Southern climate. In about a month they will probably be plentiful on the numerous lakes and streams of this vicinity.

Doves may be shot after Nov. 15, but they are not plentiful, and it seems so cruel to kill such a peaceable innocent thing as a dove that it can hardly be classed as sport.

The turkey season does not open till January 1st.

The deer season opens also on the 15th of this month and Bro. Bear will take to the bushes on the same date, so just remember while you are out looking for deer if you happen to meet Mr. Bruin that the best sprinter usually wins the race.

Deer are reported more plentiful this year than for many years past, due probably to the fact that there has been no high water in the Delta country this season to drive them out. The train men on the narrow gauge railroad report seeing numbers of them nearly every day.

In its ninth year of unrivaled popularity, with an annual sales of millions of pounds.

DIRE DISTRESS.

It Is Near At Hand to Hundreds of Greenville Readers.

Don't neglect an aching back. Backache is the kidney's cry for help.

Neglect hurrying to their aid. Means that urinary troubles follow quickly.

Dire distress, diabetes, Bright's disease.

Profit by a Greenwood citizen's experience.

Mrs. H. N. Austin, 956 Oak street, Greenwood, Miss., says: "I had trouble from my back and kidneys from the time I was twelve years old. I was laid up with pains through my loins on several occasions. I could hardly straighten and I can only describe the misery by saying that it felt as if the muscles of my back were being twisted. There was also a difficulty with the kidney secretions, the passages often being scanty and distressing. I was subject to jizzy spells and was unable to receive relief until I used Doan's Kidney Pills. I cannot speak too highly of this remedy."

For sale by all dealers. Price 50 cents. Fister-Milburn Co., Bucalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.
